TWO CASES FOR HERESTHETICS

Assistant Prof. Dr. Sara ONUR

ABSTRACT

Heresthetic is special term named W. Riker. I interpreted it differently it from Riker. When I said it "the war" I felt that I would be the one to take the battle. Heresthetic as negative and positive it has two kinds. As in every war, there will be losses to win. With Dr. Öğr. Ü. even I win at the university, it's true where I lost in UAK for now.

This trial paper is to show heresthetics and it has two cases to prove that heresthetic is science as heresthetics.

Keywords: Heresthetics, Negative – positive heresthetic, title changing at the Universities in Turkey

1. INTRODUCE

Turkey is really the enjoyable and funny country. I explose it who dont know where's, bridge which a in middle of asia and europe. Turkey is area of 814.578 km² and it's population of 80 million. It's governed by the republic and has about 500 deputies in Parliament whose name's TBMM. These are official figures that appear. In really it's facts are different from what it's appearance.

For example, although it's offically by the republic, a teaching member system of higher education can be changed by an order (26.07.2017 Turkish Press) of President² in one day. Moreover, with a mysterious protest unprecented in the world. Though I'm pleased with this practice with two reasons. Firstly, it's appropriate according to my belief, "how are you, you' re governed". Secondly, my salary increased. But this isn't enough. The real problem, UAK should be dismissed. Because as seen in the following documents, UAK is irregular and rebels as a "new king" for associate professorship. At the same time it is aimed to teach the "real king". Even, it's a secret attack as it's in the abbreviation of Dr. Öğr. Ü as below I explose.

The Turkish legal system is also great. Especially the administrative law system. The report, which the legal experts never gave in legal period, leaves undecided after a long period (about 12 months). This case is documented below. Turkey for Heresthetics is heaven, enjoyoble and funny.³

2. THE OFFICIAL INFORMATION ABOUT THE UNIVERSITY IN TURKEY

The school for higher education was opened in 1453 as a conquest symbol by Fatih Sultan Mehmed Han who conquered Constantinople, named Istanbul. Moreover, in 1833 Darülfünun was opened, in 1933 Istanbul university was. In 1950 the first university of republic of Turkey was established as Ankara University.

Today, as of may 2018, in Turkey, there's 190 üniversity. Total number of student' is 7.560.371, total number of teaching members (who' re professor, assistant prof, dr. teaching member, research asistant)'s 158.098. Number of students per teaching staff is appropriately 47 students. Number of students per professor is appropriately 306 students, number of students per assistant professor is appropriately 522

student. Number of students per dr. teaching member is appropriately 213 students. Number of students per non-instructor (only can be a consultant) research assistant is appropriately 164 students.⁴

190 universities have 1694 faculties,467 shoool of higher educations, 981 vocational school of higher education, 685 institutes, 18195 departments, 12378 master's programs, 5295 PhD programs.

University is managed by rector, faculty is managed by dean, high school is managed by director. The president appoints rector, the rector appoints dean and director. The rectorate election system has been abolished.⁵ In 28.12.2017 and in 15.03.2018 the different of appoinments of rector are the first offical heresthetics for universities. The evidence for legal heresthetic is hidden at the press release of non-"positive opinion".

3. HERESTHETICS

Although heresthetics mean in greek as "choosing and electing"⁶, according to name father and establisher of Rochester School who' W. Riker, Heresthetic is "...to build an earth that can win..." ⁷ I change this definition as "to win in the world you can build". Because with some kind of game theory one build a new world, then he starts to win in that world.

Heresthetic occur when legal means are used or not used or by the use or by non- use of legal remedies. In every kind is true that the ignorance of the opposite side. The higher the ignorance, the stronger the heresthetic.

When one build a new world, sometimes one damage the environment, sometimes one's beneficial. Damage finds out *negative heresthetic*, benefit finds out *positive heresthetic*. Sometimes a heresthetic case occur both of them.

Heresthetic is science because it can be proved concrete in cases with evidences.

4. TWO CASES FOR HERESTHETICS

In this section, we examine three cases and I explore how heresthetic ocurs. The first case is about Öğr. Ü. Dr. – The Teaching Member Dr. in universities in Turkey;both negative and positive heresthetic.

On July 15, 2016, an unsuccessful military coup attempt was made to remove the civillian administration that elected democratically. Although this incident seemed to be a military event, in reality all publis institutions had members of a religious and an illegal organization that was attempting coup d'état, and in particular to provide money for this organization and to cooperate with the organization. Specially one member from this members is very important A.Ö. as known "imam⁸ of the organization". This person was the reason which the Yardımcı Doçent Doktor – Yrd. Doç. Dr. (asistant of assistant professor) was conversed to Doktor Öğretim Üyesi (doctor teaching member). Because, A.Ö. in coup night, in military barracks there was as the consultant⁹ and he was a Yrd. Doç. Dr. after one year from unsuccessful coup, in 26.07.2017 in the speech, the president – (long live our beloved king) said that: "especially in our country, there are my request from our rectors. I also talk to our Head of YÖK (High Teaching Board). For God's sake, what is this assistant professor? Take a look at this." This request was almost a military order and after one year the state officer of yrd. doc.dr. removed and instead, dr. teaching member is brought¹¹. This is beneficial who can't take associate professor interview. But this has the grand danger and grand threat. Because heresthetic is hidden behind the title. Master and Dr. academic title but Teaching Member isn't academic only administrative title. ie., easily the new administration can change teaching member of reason that the wrong name that "Dr. Öğr. Ü". The true title is "Öğr. Ü. Dr." (The Teaching Member Dr.) title, because one win the

teaching member only with PhD ie, with Dr. so, Dr. title need to come from name- surname. Moreover, unless one hasn't PhD he isnt the teaching member as Prof. Dr., Doc. Dr.

The second case depends on five e-mails; We (I and it) wrote by e-mail the one who uncertain what to be – perhaps an ordinary civil servant in UAK (the inter universities committee- the institution where applicants of associate professorship applications are made via ethernet).

With Dr. Öğr. Ü., UAK must be very angry that he's being taken away from the interviewing authority. Fort his reason the internet does not open the application system for associate professors as you can see in the Picture in appendix 1. When I ask the reason of this with e-mail, only I read a lot of words but my system wasn't for my appoinment. Those e- mails are in appendix 2. Another reason, may be, why UAK in personality is angry is the ongoing court. 12 UAK got his revenge.

5. GENERAL EVALUATION AND CONCLUSION

As seen in two cases, Dr. Öğr. Ü. has both positive and negative heresthetic. With positive heresthetic the our contract with university extended for 4 years. (before it, each university determined from 1 to 3 years.) moreover our salaries increased.

But unfortunately, Dr. Öğr. Ü. is danger threat for academic change. Because one may says "Dr. is academic title, there isnt before state officer. Academic title should come beginning the name- surname, administrative title must come before Dr.".

Moreover with Dr. Öğr. Ü. title, it's reduced UAK's power in associate professorship applications. UAK will begin to take revenge of this as he did to me.

The president must finish the work he started, and associate professorship applications entirely should leave the initative of universities like all other staffs (as research assistant, dr. öğr. ü. doç. dr., prof. dr.).
